**Subject:** rush sequence search request for application number 09/744,794

Ms. Chan,

I have an application (due this biweek) wherein applicant elected a nucleic acid encoding SEQ ID NO:2 and the corresponding encoding nucleic acid of SEQ ID NO:38. However, due to an alteration in the sequence listing after my restriction, the corresponding nucleic acid encoding SEQ ID NO:2 is now SEQ ID NO:37 instead of SEQ ID NO:38. I've had SEQ ID NO:38 searched, however, I now realize that I need SEQ ID NO:37 searched instead. I would like to request a rush sequence search of SEQ ID NO:37 as detailed below. Thank you very much.

**Please search the following sequence in commercial databases:**

- 1) Standard search of SEQ ID NO:37 against nucleic acid databases.**
- 2) Oligo search of SEQ ID NO:37 against nucleic acid databases.**

**Please provide search results on diskette. Thank you.**
